

Kelli Snache THANKFULNESS

What I am grateful for in 2021:

There is much to be grateful for as I reflect over the past 11 months of 2021.

It has been quite the straining, emotional, and stressful journey with the Covid 19 pandemic on our doorsteps. Although we have not yet come to an end of this pandemic, **I am grateful that we as a community have done our best to protect each other throughout the year. I am so grateful for everyone that has vaccinated to protect themselves and others.**

As we move forward into 2022, I hope for better, healthier lifestyles for everyone. I pray that this pandemic goes away soon and our lives get back to normal.
